“🇺🇦📖 The Warsaw Ukrainian School SzkoUA has new language learning equipment since yesterday! Children with migration experience will learn Polish and English in an even more attractive and interactive way.📱💡 We support children and teachers throughout Poland together with [@unicef](#) - Akelius. We train how to introduce "blended learning", i.e. teacher + online, to teach languages, because the sooner a child learns a language, the sooner he will feel stable at school and in the new reality. In a moment, the Akelius program will reach various corners of Poland 🇵🇱 stay tuned!
