 Save the Children in North West  
Balkans

Look with us in the Blue Room of JU Elementary School *Harmani II* for an English class with teacher Dubravka Preljević and see how the children from the eighth grade marked the World Environment Day.

The lesson inspired by World Environment Day was realized with the help of the Akelius digital application for learning foreign languages, which encouraged the youngest even more to take an interest in environmental protection and actively engage in the fight against natural pollution.

Additionally, with the help of comics and games, they showed us how they can contribute to the preservation of our planet.
